INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Board of Aldermen City of Crystal Lake Park Crystal Lake Park, Missouri

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of the City of Crystal Lake Park, Missouri, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position-modified cash basis of the governmental activities and each major fund of the City of Crystal Lake Park, Missouri, as of December 31, 2014, and the respective changes in financial position thereof for the year then ended in accordance with the basis of accounting as described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3a-3d and 16-18 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The budgetary comparison schedule - capital improvement fund is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The budgetary comparison schedule - capital improvement fund is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedule - capital improvement fund is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 3, 2015, on our consideration of the City of Crystal Lake Park, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Crystal Lake Park, Missouri's internal control over financial reporting and compliance.

St. Louis, Missouri March 3, 2015

CITY OF CRYSTAL LAKE PARK, MISSOURI MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2014

As management of the City of Crystal Lake Park, Missouri (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here along with the City's financial statements, including the footnotes that follow this Management's Discussion and Analysis (MD&A).

FINANCIAL HIGHLIGHTS

- On a government-wide basis the assets of the City exceeded its liabilities for the most recent fiscal year by \$1,097,584. The City had an unrestricted net position of \$176,109.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$483,448, an increase of \$72,404 or 17.6%.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$176,109 or 99% of total General Fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplemental information and other supplemental information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position - modified cash basis presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities - modified cash basis presents information showing how the City's net position changed during the most recent fiscal year.

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, management information systems, community center, legal department, public works, planning and zoning, board of adjustment, street department, summer youth program, parks and recreation, health department, building maintenance, police department, municipal court, and sewer lateral. The City does not have any business-type activities. The City has elected to utilize a modified cash basis of accounting as explained in Note 1 of the notes to financial statements.

The government-wide financial statements can be found on pages 4 and 5 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The City only maintains governmental funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements utilize a current financial resources measurement focus as applied to the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financial decisions. Both the governmental funds balance sheet - modified cash basis and the governmental funds statement of revenues, expenditures, and changes in fund balances - modified cash basis provide a reconciliation to facilitate this comparison between governmental funds and the government-wide governmental activities.

The City maintains two governmental funds. Information is presented separately in the governmental funds balance sheet - modified cash basis and in the governmental funds statement of revenues, expenditures, and change in fund balances - modified cash basis for the General Fund and the Capital Improvement Fund, which are considered to be major funds.

The City adopts an annual appropriated budget for all of its funds. Budgetary comparison statements have been provided for these funds to demonstrate compliance with their budgets.

The governmental funds financial statements can be found on pages 6 through 9 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 10 through 15 of this report.

Required supplemental information. In addition to the basic financial statements and accompanying notes, certain required supplemental information can be found on pages 16 through 18 of this report.

Supplemental information. The budgetary comparison schedule - capital improvements fund is presented immediately following the required supplemental information and be found on page 19 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

A condensed version of the statement of net position – modified cash basis follows:

	Decem	ber 31, 2014	December 31, 2013		
Assets					
Current assets	\$	485,103	\$	413,544	
Capital assets, net		614,136		624,424	
Total assets		1,099,239		1,037,968

Change in net position		62,116		19,115		
Net position, beginning of year		1,035,468		1,016,353		
Net position, end of year	\$	1,097,584	\$	1,035,468		

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on inflows and balances of available expendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At December 31, 2014 the total fund balance of all governmental funds was \$483,448.

The fund balance in the City's General fund increased by \$72,404 compared to an increase of \$35,998 in the prior year. The change is mainly due building and street projects completed in current year.

CAPITAL ASSETS

The City's investment in capital assets for its governmental activities as of December 31, 2014 amounts to \$614,136 (net of accumulated depreciation). This investment in capital assets includes land, bridges, roads, and equipment. The total decrease in the City's capital assets for the current fiscal year was \$10,228.

Additional information on the City's capital assets can be found in Note 7 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Taxes are the main source of revenue for the City at 84% of total revenues. Revenues and expenditures are expected to remain level for the next few years, with no plans for major projects. These factors were considered in preparing the City's 2015 budget.

REQUESTS FOR INFORMATION

This financial report is designed to provide our residents and taxpayers with a general overview of the City's finances and to show the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Crystal Lake Park, P.O. Box 31338, Crystal Lake Park, MO 63131.

CITY OF CRYSTAL LAKE PARK, MISSOURI RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - MODIFIED CASH BASIS - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES - MODIFIED CASH BASIS FOR THE YEAR ENDED DECEMBER 31, 2014

Net change in fund balances - total governmental funds		\$ 72,404
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay	29,558	
Depreciation expense	(39,846)	 (10,288)
Change in net position of governmental activities		\$ 62,116

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Crystal Lake Park (the City) was incorporated in 1938. The City operates under a Mayor-Board of Aldermen form of government and provides various services including public safety, recreation, public improvements, planning and zoning, sewer lateral, and general administrative services.

Reporting Entity

The City defines its financial reporting entity in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity* (GASB 14). GASB 14 requirements for inclusion of component units are based primarily upon whether the City's governing body has any significant amount of financial accountability for potential component units. The City's is financially accountable if it appoints a voting majority of a potential component unit's governing body and is able to impose its will on that potential component unit, or the potential component unit may provide specific financial benefits to, or impose specific financial burdens on, the City. Currently, the City does not have any component units.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. As a general rule the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges for services to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, unrestricted interest earnings, gains, and other miscellaneous revenues not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. The major governmental funds are the General Fund and Capital Projects Fund and are reported as separate columns in the fund financial statements.

Measurement Focus and Basis of Accounting

Measurement focus is the term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

In the government-wide statement of net position - modified cash basis and the statement of activities - modified cash basis, governmental activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In the fund financial statements, all governmental funds utilize a "current financial resources" measurement focus as applied to the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balances as their measure of available spendable financial resources at the end of the period.

In the government-wide statement of net position - modified cash basis, the statement of activities - modified cash and the fund financial statements, governmental activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position, revenues, and expenditures when they result from cash transactions with a provision for depreciation and long-term debt in the government-wide statements. This basis is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues and certain liabilities and their related expenses are not recorded in these financial statements. Modifications to the cash basis include certificates of deposit, capital assets, payroll tax withholding and permit deposits.

The government reports the following major governmental funds:

General Fund - This fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Improvement Fund - This fund is used to account for financial resources to be used for the acquisition, construction, or improvement and maintenance of major capital facilities, public improvements, infrastructure and operating equipment.

Cash and Cash Equivalents

The City considers all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less to be cash and cash equivalents. Missouri State Statute requires that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

Certificates of deposits held at local banks with an original maturity of more than three months are valued at cost and labeled as certificates of deposits in the financial statements.

Use of Estimates

The preparation of basic financial statements in conformity in a comprehensive basis of accounting other than U.S. generally accepted accounting principles requires the City to make estimates and assumptions that affect the reported amounts in the basic financial statements and the accompanying notes. Actual results could differ from those estimates.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets

Capital assets, which include land, equipment and infrastructure assets, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$1,000 and estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated fair market value on the date of donation. The City has elected not to retroactively report infrastructure constructed prior to March 1, 2004. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciation is being computed on the straight-line method, using asset lives as follows:

Assets	Years
Infrastructure	10-25
Equipment	5-20

Interfund Transactions

Interfund transfers may be used to: 1) move revenues from the fund that ordinance or budget requires to collect them to the fund that ordinance or budget requires to expend them, 2) move unrestricted revenues collected in the General Fund to finance capital improvements in accordance with budgetary authorization, or 3) move revenues in excess of current year expenditures to other funds.

Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

Governmental Fund Balances

Fund Balance is the difference between assets and liabilities in a Governmental Fund. The following types of fund balances may be presented in the Governmental Funds Balance Sheet and Governmental Funds Combining Schedule of Accounts:

Restricted - the portion of a Governmental Fund's balance that is subject to external enforceable legal restrictions. The following fund balances are restricted by City ordinance, tax authority, or grant agreements: General fund - Sewer Lateral and Capital Improvements.

Committed - the portion of a Governmental Fund's balance with self-imposed constraints or limitations that have been placed by the Board of Alderman. The committed fund balance is made up of Board approved street improvements in the following fund: Capital Improvements.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Unassigned - available expendable financial resources in a Governmental Fund that are not designated for a specific purpose. The following fund comprises the unassigned fund balance: General Fund.

The City uses restricted amounts first when both restricted and unrestricted fund balances are available, unless there are legal contracts that prohibit doing this.

The fund balance of the City's General Fund has been accumulated to provide stability and flexibility to respond to unexpected adversity and/or opportunities. The target is to maintain an unassigned fund balance of not less than 25% of annual operating expenditures for the fiscal year.

Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets represents the cost of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The City utilizes restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted assets are available.

Note 2 - PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and payable by December 31. The county collects the property tax and remits it to the City. The assessed valuation of the tangible real, personal taxable and public utility property for the calendar year 2014 for purposes of local taxation was \$15,047,740. The tax levy per \$100 of the assessed valuation of tangible taxable property for the calendar year 2014 for purposes of local taxation was:

		<u>Real</u>	Pe	ersonal			
	<u>Re</u>	Residential		nmercial_	Property		
General Fund	\$	0.7390	\$	0.3410	\$	0.8080	

Note 3 - COMMITMENTS AND CONTINGENCIES

The City entered into a contract with the City of Frontenac for police and fire protection and ambulance services. The current contract expires December 31, 2017. The contract is paid on a monthly basis and increased annually by an amount equal to the percentage of increase in the Consumer Price Index for salaries in the St. Louis area, as measured by the Bureau of Labor Statistics of the U.S. Department of Labor for the preceding year. A total of \$119,380 was paid in 2014 and payments of \$121,170 are expected for 2015.

Note 4 - DEPOSITS

Missouri Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of the collateral pledged must equal 100% of the deposits not covered by insurance or corporate surety bonds.

Deposits - At year-end, the carrying amount of the City's demand deposits totaled \$485,103 and bank balances total \$486,186. Included in the total, the City also had certificates of deposit with a total carrying amount and face value of \$250,000. These certificates of deposit are shown as certificates of deposit rather than cash equivalents due to their original maturity dates.

Of the bank balances (including demand deposits and certificates of deposits), \$486,186 was insured by the Federal Deposit Insurance Corporation (FDIC).

Note 5 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through March 3, 2015, the date which the financial statements were available for issue.

Note 6 – MUNICIPAL COURT TRAFFIC VIOLATIONS FINES AND COSTS

Missouri House Bill No. 103 amending RSMo Section 302.341.2 became effective on August 28, 2013. The amendments to the statute now require municipalities to report an accounting of the percent of "annual general operating revenue" from fines and costs for traffic violations. Total fines and court costs revenues for the fiscal year, which include fines and court costs related to traffic violations, summed to \$0. "Annual general operating revenue of the City" is not defined in the amended statute and may or may not include various sources of the City's revenues. The City is defining "annual general operating revenues of the City" as "Total General Fund Revenues."

Total court fines and costs (all case types)	\$ -
Total general operating revenue of the City	\$ 245,643
Court fines and costs as a percentage of total general operating revenues	0.00%

Note 7 - CAPITAL ASSETS

CITY OF CRYSTAL LAKE PARK, MISSOURI NOTES TO REQUIRED SUPPLEMENTAL INFORMATION DECEMBER 31, 2014

Note 1 - BUDGETS AND BUDGETARY ACCOUNTING

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. The proposed budget is submitted to the Board of Aldermen for the fiscal year. The operating budget includes proposed expenditures and means of financing them, not to exceed the total revenue of the preceding year plus any fund balance at the end of such year. These budgets are adopted on the modified cash basis of accounting.
- b. Public hearings are conducted in the City to obtain taxpayer input and comments.
- c. The budget must be adopted by the affirmative vote of a majority of the Board of Aldermen for each fiscal year.
- d. The Board of Aldermen may amend budgeted amounts.
- e. All appropriations not spent or legally encumbered at year-end lapse.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Alderman City of Crystal Lake Park Crystal Lake Park, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Crystal Lake Park, Missouri, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise City of Crystal Lake Park, Missouri's basic financial statements, and have issued our report thereon dated March 3, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Crystal Lake Park, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Crystal Lake Park, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Crystal Lake Park, Missouri's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Crystal Lake Park, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
